CURRENT SNAPSHOT of the Fairport/Perinton REAL ESTATE Market

SINGLE FAMILY HOMES:

The Real Estate Market is Shifting: last month total homes for sale was 84; today it is 106; from 61 Existing homes in June to 82 today. As of July 23rd, 2018, there are currently 106 ("Active" and "Continue to show") new and existing homes for sale in the Fairport Central School District (Town of Perinton and Village of Fairport). Of those 106 homes; 24 are "NEW" Build Construction, leaving 82 Existing Homes for sale, up from 61 last month.

Of those 24 "NEW" Build Construction, 22 are at a starting-build price per the MLS(Multiply Listing System) of \$300,000 PLUS and 2 are under. Of those 84 Existing Homes; 30 homes are currently listed over \$300,000 and the other 52 are under (that is up from 29 in June).... FROM 29 active existing homes in June up to 52 in July!, There is the shift.....In my experience, vacations and lease renewals play a Big role in that number.

Password Reuse - Your Employees Shortcut and an Opening for the Bad Guys

Digital credentials such as usernames and passwords connect you and your employees to critical business applications, as well as online services. Unfortunately, criminals know this - and that's why digital credentials are among the most valuable assets found on the Dark Web.

As IT experts in the greater Rochester area for the last 20 years, we know there are always a few employees who leave the door wide open for cyber criminals, hackers and thieves. Maybe they're sloppy with their passwords. Perhaps they use a personal email for work or reuse their passwords. Whatever mistakes they make, they put your entire

company at great risk.

Join Just Solutions & ID Agent to learn more about the Dark Web and how to avoid a debilitating cyber-attack.

For more information or to register, visit justinc.com/darkwebwebinar
All attendees will receive a FREE Dark Web scan (normally \$399)!
